## Export Compliance And Management Program

Understanding your responsibilities and complying with the law!

**Export Compliance Program?** Yes...Trans-Border's Export Compliance Seminar is a *must* for every U.S. Exporter who wants to be compliant with all U.S. Government Agencies that have export rulings in place.

**Why?** Failure to comply with export laws can carry possible fines and so forth. This seminar addresses key issues on what you can do to keep the U.S. Government happy.

**It's that important?** You better believe it. Export Compliance is a hugely important topic – especially post 9/11. Extra emphasis is placed on the legitimacy of exports/sale of technologies, end destinations, end-users etc. U.S. Exporters are required to be compliant at all levels of international transactions – from the initial sale through to final shipping.

### Topics of discussion:

- Overview of Government Agencies...who controls what
- Knowing your customer – who is involved/screening parties to your transactions etc
- Incoterms 2010 – what/why you need them
- Product classification/Schedule B codes: Where to go?
- Export Documentation/Country Specific Requirements etc
- Much much more!
